Making the future work for you

---

**UK ADVANCED POWER GENERATION FORUM  
DTI, LONDON  
25 NOVEMBER 2004**

---

**SUMMARY**

**Nick Otter**

---

## RESUME

- Summary of UK position in the approach to 2005, an important year
  - upcoming leadership of G8 and the EU
  - importance of Global Climate Change especially engagement of Emerging Market Economies
  - definition of UK CAT strategy and importance of collaboration - within UK, within Europe and in full international arena
- Update on EC/EU position and strategies being developed elsewhere in the world

## MAJOR OUTCOMES

### ● Key Points

- essential for UK to finalise its strategy towards clean use of fossil fuels and so form the basis of DTI work in this area
- carbon abatement of fossil fuels will be a critical issue in the transition to a sustainable energy future.
- UK developments need to be done against an international backdrop and should involve collaborative activities
- opportunity to get a critical mass European initiative underway with UK in one of lead positions
- successful deployment of technology essential in an ever increasingly competitive and risk adverse marketplace
- need for consistent policy to give industry confidence to invest

## OUTPUT OF FORUM

- Contribution to the debate on Carbon Abatement for fossil fuels, just at a time when UK is defining its strategy and about to take lead of G8 and of the EU
- Presentations will go onto the APGTF Website

[www.apgtf-uk.com](http://www.apgtf-uk.com)

## THANK YOU

- Thank you to all presenters, panellists and the active participation of the audience
- Thank you to all who have attended, especially those from outside the UK
- Thank you to the DTI for hosting the event and to all those who have helped the APGTF to organise it

**PLEASE ENJOY THE RECEPTION WHICH STARTS NOW**
